NEW WESTMINSTER, WEDNESDAY, SEP. 14, 1864.

**Good News from Cariboo.**  
**ONE HUNDRED DOLLARS TO THE PAN!**

Dates to the 5th Instant.

**ARRIVAL OF DOCTOR RAE!**  
COMMISSIONER COX AT ALEXANDRIA.

Mr. R. P. Cranford, who arrived from Cariboo yesterday in charge of the express, accompanied by Mr. Moore, of Victoria, called upon us last evening and supplied the following highly interesting information. Mr. Cranford has resided for the last 18 months on Williams Creek, and is both thoroughly reliable and well informed respecting mining operations in Cariboo: The weather, which had previously been very dry and warm, underwent a marked change. Rain fell on the 3rd and 4th, which turned to snow on the 5th. The heavy rains would swell the streams, thereby enabling about 30 claims to be worked which had been idle for lack of water. In view of a full supply of water, Mr. Cranford feels confident that the yield will far exceed anything hitherto obtained.

The Artesian Mining Co. struck a lead on the 2nd inst., paying \$4 to \$6 to the pan. Mr. Cranford brought down a section of the pay dirt which would, we judge, yield at the rate of \$100 to the pan! The company had 150 ounces in the sluice as the first day's washing. This company hold half a mile square in what is known as the "Meadows," and there is the only claim successfully prospected as yet below the Marysville, although it is presumable that a very large extent of ground there is equally rich, but other companies have not been able to contend with the water.

The Young Canadian and Mounts-bay Cos. were driven out by the water just as they struck good pay. These claims adjoin the Artesian on the lower side.

The Prairie Flower struck it on the morning of the 5th, taking out 170 ounces.

The old Cameron Claim is paying 89 to 90 ounces a day.

The Ruby is paying well. The Dead Broke begins to pay. The Great Eastern is paying tolerably well. The Cariboo is paying 30 to 40 ounces a day.

The Williams Creek Bed-rock Flume and Ditch Company have 100 feet of their flume completed, and are in receipt of \$100 a day for the water brought from Jack-of-Clubs. They intend finishing 2800 feet of the flume this season, which will reach the upper part of the old Steel Claim, at Richfield.

The Bed-rock Drain is completed above the Cameron Claim, tapping the Moffatt drift, and effectually draining all the claims on its course.

The Grouse Creek Bed-rock Flume Co. have 200 feet of their flume constructed, and find good prospects in the ground through which it passes. They will have 600 feet completed this season. In running the ditch in the hill side they struck a rich quartz lode—estimated to be worth \$4000 to the ton. This discovery caused great excitement, and claims to the extent of two miles, were at once staked off. This is supposed to be the same lode, running diagonally across the mountain, which Hard Curry struck on Jack-of-Clubs a few weeks previously.

The Antler Bed-rock Flume is paying well. Over 200 feet of this flume is laid, and the ground in which they are now working is very rich.

On Cunningham's Creek about 200 miners are at work, some of whom are earning as high as 2 to 3 ounces a day.

On Canyon Creek—a new creek near Chisholm Creek—ground had been struck paying as high as \$6 to the pan!

On Lowhee Creek the Cornish Co., below the canyon, were washing 40 ounces a day. The First Chance Co. had run a tunnel 500 feet and struck a prospect in the gravel. They were sinking a shaft for the bed-rock. The Bed-rock Flume Co. on this creek are getting on well. Their first washing gave 170 ounces. The Chitenden Co. struck it very rich. We have been shown a nugget from this claim worth \$80. Several other claims on this creek were paying well, and Lowhee only wants a full supply of water in order to bring its yield up to Williams Creek, in proportion to its extent.

A considerable number were coming down, partly owing to the short supply of water and partly on account of the Souke news.

Commissioner Cox would arrive at Alexandria on the 9th with the 8 Indian prisoners. There was no later news from the Chilacoten country. The rumor of the further capture of 9 prisoners lacked confirmation.

Dr. Rae, of the Overland Telegraph, had arrived at the Mouth of Quesnelle, having come down all the way from Fort George in a canoe with one Indian! He was about to start for Williams Creek, where he proposes surveying the telegraph line through to Tete-ne-ne-cache.

The provision market on Williams Creek was glutted, and prices had fallen below cost. Flour had changed hands, in quantity, at 28 cents!

### Three Hundred Fruit Trees.

THE SUBSCRIBER would inform the good people of New Westminster and surrounding neighborhood that he wishes to dispose of a choice assortment of Fruit Trees, five (5) years old. They are in prime condition, as they have been taken great care of, and if transplanted within one month will bear fruit next year. Parties that want to have a bearing orchard without waiting four or five years had better apply at once and select their trees, so that they may be ready to remove them about the first week in October, which is the best time for trees of this age in this climate.

### Poetry.

#### Italian Summer's Eve.

Grandly and slowly the sun is descending,  
And the clouds are all robed in one heavenly dye;  
The gold and vermilion so softly are blending,  
That the faded alysium seems pictured on high.

The crystalline dewdrops are kissing the flowers—  
The jewels that Nature has bound on her brow;  
And the fireflies are lighting the orange-tree boughs,  
While meteor-like insects glide through each dark bough.

Deeply blazes the face of the emerald ocean;  
The storms are asleep in their caverns below;  
And the green waves that ripple with gentle emotion  
Flash bright in the sun's dying beams as they flow.

A rainbow of glory sits high on the fountains,  
And steep the white spray in its coolest dye;  
And the sunbeams that steal up the sides of the mountains  
Are hasting to join their bright mates in the sky.

Hark! 'tis Nature's sweet voice, in her evening song, flowing  
From each wind-stirred leaf of the whispering grove;  
And a messenger darts on the hilltop is glowing,  
Like a herald of peace sent to man from above.

#### The Capture of Chang-Chow-Foo.

Our last advices from China brought news of the repulse of Gordon and the Imperialists at Chang-Chow-Foo, with a loss in killed and wounded of 27 officers and 360 men. By the present mail we learn that a subsequent attack upon the place was successful. Chang-chow-foo was, in fact, taken by the Imperialists and the European forces on the 11th of May. The Shanghai correspondent of the Times writes:—"Gordon has at length brought his campaign against the rebels to a close by the capture of Chang-chow, and will return to Quinsan to wind up the accounts of the force preparatory to complying with the recent Order in Council withdrawing permission for British officers to serve in the Chinese army. After the unfortunate attack on the 27th ultimo, when he experienced so severe a reverse, he threw up regular breastworks along a ridge about fifty yards from the city wall, to serve as covers for the stormers at the next assault. His guns were all placed in position outside the east gate in such a manner that they cut the wall obliquely. At daylight on the 11th fire was opened both from Gordon's batteries and those of the Imperialists on the two old breaches, which had been partially barricaded, and a fresh part of the wall which it was intended a short storming party should attempt to carry. Musketry and an enfilading fire from a small battery on the left kept clear the wall, and the infantry were able to mass themselves under cover of the breastwork without molestation. Early in the afternoon both breaches were ready and at a given signal the Imperialists, rushing out from their trenches, succeeded in crowning the wall, but met such a determined resistance that they fell back in confusion. Seeing that they were giving way, Gordon launched 700 fresh disciplined troops, who rushed up the breach with an *élan* that nothing could withstand, and gained a firm footing on the top, almost before the rebels had turned to face this new attack. The Mandarin troops paused in their retreat, turned, and followed them. Fresh masses poured out of the stockades in every direction to their assistance, and after a short but severe struggle, the rebels were driven from the wall into the adjoining houses. All this time the Imperialists were gallantly holding their own on the opposite side of the city, but were beginning to waver, when the news of Gordon's success induced them to make one more desperate effort, which turned the scale in their favour. The rebels had now been driven from the wall in every direction; but the struggle was not finished. They separated in two parties, one of which was pursued by the Imperialists along the north road, the other along the south side of the city, each frequently rallying and checking its pursuers, but being again compelled to give way and resuming its flight. When near the north gate they made so desperate an attack that the Mandarin troops gave way in confusion, and a portion actually fled down the nearest breach; but they were rallied by their leaders and recovered their ground. A large body of Cantonese, with the principal rebel Wangs, made for the west gate, determined to cut their way through and escape, but though they fought desperately they were hemmed in by numbers and nearly all put to the sword. Four Wangs, including Hoo-wang the commandant of the city, were taken prisoners and beheaded. The latter defended himself desperately to the last, and when at length overpowered, bound, and taken before the Futai, refused to make submission or pay him any respect. He told him he would never have taken the city, but for the aid of the disciplined troops. This Wang was one of the most noted rebel leaders, and it is an extraordinary coincidence that he captured Chang-chow four years ago, at the same hour, on the same day, in the same month, on which he lost it. The Chinese will draw some extraordinary fatalistic inferences from this. The Imperialists lost from 250 to 300 men, while about 3,000 rebels fell during and subsequent to the assault. These were nearly all Cantonese—old rebels, rebels by inclination and profession, not pressed men; and though so great a loss of life is to be regretted, it must be considered as a removal of a class of men who would have proved a pest to the country if set at large."—*London Dispatch*.

### BENSON'S WATCHES AND CLOCKS.

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock-work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer ever could be fitted with more perfect work."—*Standard*, June 17, 1862.

"Some of them are of great beauty; and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—*Times*, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is in present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—*Illustrated London News*, November 8, 1862.

**THE SUFFERER'S BEST FRIEND.**  
**HOLLOWAY'S PILLS.**

All Disorders affecting the Liver, Stomach and Bowels.

These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, biliousness, heartburn, colic, constipation, and all the many maladies resulting from disordered stomach or bowels. In all diseases it is of primary importance to set the stomach right. These Pills are purifiers, alteratives, and strengtheners of the stomach. They may be taken under any circumstances. Though powerfully tonic, and satisfactorily aperient, they are mild in their operation, and beneficial to the whole system.

**Weakness and Debility, Nervous Irritability.**

The wholesale effect exercised by these admirable Pills over the blood and fluids generally is like a charm in dissipating low spirits, and restoring cheerfulness. Their general aperient qualities well fit them for a domestic medicine, particularly for females of all ages and periods of life. They never betray any disagreeable irritating qualities; they quickly effect all impurities from the system, and regulate every function of the body, giving wonderful tone and energy to weak and debilitated persons, while they brace and strengthen the nervous system in a most extraordinary manner.

**To Regain Health, Strength and Vigour.**

Whenever persons find themselves in that state termed a "little out of health," and there are so many causes at work to shorten life, it is necessary that Holloway's Pills, the finest purifier of the blood ever known, should be at once taken, as they not only rid both solids and fluids of all morbid matters, but regulate all disordered actions, and strengthen the frame in a most extraordinary manner.

**Old Coughs, Colds and Asthmatical Affections.**

These Pills, assisted in their action by rubbing Holloway's Ointment very effectually twice a day upon the throat and chest, and keeping those parts covered with the preparation, will be found the most effectual remedy for asthma, coughs, colds, bronchitis, and influenza. These remedies tranquilize the hurried breathing, soothe the irritated air-tubes, and assist in dislodging the phlegm which stops up the air-passages. This treatment has proved wonderfully efficient in not only curing old settled colds, but asthma of many years standing, and even when patients who were in so bad a state as not to be able to lie down on their beds lest they be choked with phlegm.

**Derangement and Distention of the Bowels, Flatulency, Diarrhoea and Dysentery.**

Any symptoms of the above complaints should be immediately met by appropriate doses of these Pills, according to the printed directions; delay may be followed by disastrous consequences. These Pills are a certain remedy for all the ailments of the alimentary canal, they secure the thorough digestion of the food, and act most kindly on the stomach, liver, bowels and kidneys. As a household medicine they are unrivalled, and should always be at hand.

**Very Important, of Costiveness Beware.**

Rarely but little notice is taken of costiveness, yet, at certain periods, it is a sure sign that danger is near. All who are seized with apoplexy and paralysis, have previously suffered from costiveness. In the former case the blood flies to the head, a small vein is ruptured on the brain, and we know the rest. Let wives counsel their husbands, and husbands their wives, never to go to bed a second night, if the bowels have not been properly moved during the day, particularly if they feel heavy and drowsy. A few gentle doses of these fine Pills will regulate the circulation of the blood, and all dangerous symptoms.

Holloway's Pills are the best remedy known in the world for the following diseases:—

**ALL CURES MADE EASY!!**  
**HOLLOWAY'S OINTMENT.**

**Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.**

No description of wound, sore, or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance when ever this medicament is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

**Piles, Fistulas and Internal Inflammation.**

These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighbouring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; and most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

**Rheumatism, Gout & Neuralgia.**

Nothing has the power of reducing inflammation and subduing pain in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

**Eruptions, Scald Head, Ringworm & other Skin Diseases.**

After fomentation with warm water, utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach, consequently, in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will be thereby improved, although the eruption may be driven out more freely than before, and which should not be promoted; perseverance is necessary.

**Sore Throats, Diphtheria, Quinsy, Mumps & all other Derangements of the Throat.**

On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat; this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

**Scrofula or King's Evil and Swelling of the Glands.**

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action of purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure the liver, stomach and bowels, being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and Stiff Joints.	Sore Nipples.
Burns.	Elephantiasis.	Sore-throats.
Bunions.	Fistulas.	Skin-diseases.
Bite of Mosquitoes and Sand-Flies.	Gout.	Scurvy.
Coco-bay.	Glandular Swellings.	Sore-heads.
Chicago-foot.	Inflam.	Tumours.
Corns (soft).	Lumbago.	Ulcers.
Cancers.	Piles.	Wounds.
Chilblains.	Rheumatism.	Yaws.
